

VisitorTap™

Custom NFC Card 85.5 mm x 54 mm

Instructions

- Place all artwork elements in the "Customer Artwork" parent layer
- **Convert text to outlines**
- All elements except for images should be vector graphics
- Use high-quality images of at least 300 dpi
- Embed images into the file; do not link images
- Lines should be 0.5 pt or thicker
- Do not include a line or a border around the artwork edge; it will not look good
- Text should generally be 7 pt or higher to be readable
- If PMS colors are used, include the PMS color code in the layer name
- Do not flatten layers before saving
- Edit and save the file in the existing CMYK color mode
- Save the file in the Adobe Illustrator file format (.ai) with "PDF Compatible" enabled
- Name your file: "Your Church Name – Your City Name"
- Export a high-resolution PNG of your design

Print Lines

-  **Bleed:** Extend the artwork background (if exists) to fill to the bleed line to prevent a white border at the edge. Do not place artwork elements within this area.
-  **Trim:** The area of the physical product; artwork outside this area will be trimmed off.
-  **Safe:** Keep all artwork elements (text, logos, icons...) inside this area to ensure it is printed. The background artwork (if exists) should extend to the bleed line.
